

Who Are We?

The Community Alliance for Accessible Treatment (CAAT) is a Toronto-based nonprofit organization committed to promoting equitable access to health and social services for people living with and affected by HIV - particularly racialized, immigrant, refugee, and 2SLGBTQI+ communities.

Understanding Sexual Health

The World Health Organization (WHO) defines sexual health as a state of physical, emotional, mental and social well-being in relation to sexuality; it is not merely the absence of disease, dysfunction or infirmity.
